Education

Motivated software developer with a solid foundation in Java programming and Object Oriented Programming. Eager to apply theoretical knowledge to practical software development applications while contributing to team projects. Possess strong problem-solving skills and a commitment to delivering high-quality software solutions. Quick learner with a passion for technology and continuous improvement in software development.

Education

Skn Sinhgad Institute Of Technology And Science Lonavala
BE in Computer Science
2021 – 2024 | **Aggregate:** 7.83(CGPA)

Arts, Science and Commerce College Rahuri
HSC (Science) | 2019 – 2020 | **Percentage:** 61%

Savitribai Phule Madhyamik Vidyalaya, MPKV Rahuri
SSC | 2017-2018 | **Percentage:** 87%

Technical Skills

Frameworks: Spring Boot, Hibernate

Frontend Technologies: HTML, CSS, JavaScript, React.js

Backend Technologies: Java (Core Java, OOP Concepts), JDBC, Servlets, RESTful APIs

Database Technologies: MySQL, PostgreSQL, SQL

Tools: Git, GitHub, Eclipse IDE, VS Code, Postman

Experience

Java Full-Stack Developer Intern

Robowaves, Pune | 2025/02 – 2025/08

- Developed Java-based real-time applications with Hands-on experience.
- Designed and integrated backend and frontend components to create scalable, user-friendly systems.
- Ensured coding best practices, clean architecture, and deployment on AWS.
- Collaborated with the team throughout the full Software Development Lifecycle (SDLC) using Agile Scrum practices, with a focus on quality and maintainability.
- Collaborated with peers to troubleshoot, test, and enhance key features.

Projects

Broadband-Fibernet Billing System

- Built a desktop application using Java for broadband service for users.
- Integrated MySQL database using JDBC for dynamic data fetching, managing billing, user data, and service queries.
- Designed a clean, modular GUI with navigation menu and user actions for payment processing, plan upgrades, and customer support.
- Automated GST and late fee calculations in the billing module.

Store-Rating Web App

- Developed a full-stack web application using Spring Boot, MySQL, and ReactJS that enables users to submit ratings (1–5) for registered stores.
- Implemented a role-based login system supporting System Administrators, Normal Users, and Store Owners with tailored dashboards and functionalities.
- Admins can manage users and stores, view detailed listings, and apply filters.
- Users can register, browse stores, submit or update ratings, and owners can monitor ratings and view users who rated their stores.
- The application features responsive UI, search, and secure password management.

Note-Pad Code Editor

- Created a lightweight text editor with integrated compiler for beginner developers.
- Utilized Core Java concepts such as OOP, file handling, and exception handling.
- Designed user-friendly GUI using Java Swing and AWT for seamless code editing and compilation.
- Implemented file save/load functionality for code persistence and management.
- Integrated file handling to create, open, edit, and save text files.
- Added text formatting options and a built-in command prompt launcher.

Soft Skills

- Team collaboration and communication.
- Quick learner and good listener.
- Problem-solving.
- Time management and multitasking.
